WIBRS Technical Specifications, revised 2016

This revision of the Wisconsin Incident-Based Reporting System (WIBRS) Technical Specifications includes programmatic changes introduced by the FBI into the National Incident-Based Reporting System, as well as other changes and updates. Notes for many data fields have been clarified to make mandatory conditions and values clear.

New data fields and data values listed in this revision **will be accepted beginning January 2016**. These new data fields and values will be considered optional (not required, but will be accepted) in 2016.

WIBRS Program Overview

As mandated by the Wisconsin Legislature [Wisconsin Statute 165.845], the Wisconsin Department of Justice, through the Bureau of Justice Information and Analysis, is responsible for collecting information concerning the number and nature of criminal offenses known to have been committed in the state. This includes collecting crime and arrest data from more than 400 law enforcement agencies for the FBI's Uniform Crime Reporting (UCR) Program, which was initiated in 1930. The primary objective of UCR is to generate reliable information for use in law enforcement administration, operation, and management. In 1998, the FBI released data elements and offense specifications of a new system known as the National Incident-Based Reporting System (NIBRS). The Wisconsin Incident-Based Reporting System (WIBRS) is a state-specific version of NIBRS that has been operational since 2005.

WIBRS Submission Requirements and Guidelines

- One WIBRS submission file must be submitted each month by certified WIBRS reporting agencies.
- The submission file must be a text formatted file, with the file extension .txt.
- Each Group A incident must contain, at minimum, the Administrative, Offense, Victim, and Offender segments.
 - Crimes Against Property offenses and Kidnapping will additionally require a Property segment – see pages 6-8 of this manual for the complete list of these offense codes.
- Resubmissions of the most recently processed month are allowed.
 - A resubmitted file will completely cancel and reverse the file previously submitted for that month.
 - Therefore, resubmitted files must include all incidents from the original file for that month in addition to any corrections or updates.

WIBRS Segments and Segment Action Types

0 – Zero Segment

- A – Add
- D – Delete

1 – Administrative Segment

- I – Insert
- D – Delete (only applicable to previously submitted I records)
- W – Time Window
- M – Modify (only applicable to previously submitted W records)

2 – Offense Segment

- I – Insert

- 3 – Property Segment
 - I – Insert
 - W – Time Window
 - M – Modify (only applicable to previously submitted W records)
- 4 – Victim Segment
 - I – Insert
- 5 – Offender Segment
 - I – Insert
- 6 – Arrestee Segment
 - I – Insert
 - W – Time Window
 - M – Modify (only applicable to previously submitted W records)
- 7 – Group B Arrest Report Segment
 - A – Add
 - D – Delete

Zero Reports

Zero reports are used to indicate that nothing reportable (neither offense nor arrest/citation) occurred during the entire reporting month. A zero report is submitted in WIBRS as one line of code in a text submission file, and it must be the only line of text in the file to process correctly. In other words, do not submit both a zero report and other incident data in the same submission file. If an agency later submits a file to replace a previously submitted zero report, the zero report would be canceled from the state's database and replaced with the incident data.

Unfounded Incidents

The unfounded designation should be used if a Group A incident is determined to be baseless or false. In other words, an incident should be unfounded if the investigation shows that no offense occurred or was attempted. The unfounded designation must apply to all offenses on the incident. Incidents that have been marked as unfounded will not be included in data reports created in Wisconsin, nor will unfounded incidents be sent by the state to the FBI. If an incident previously sent to the FBI is later marked by the agency as unfounded, a Delete record will be sent by the state to the FBI for that incident so that it will be removed from the FBI's database.

Deleting an Entire Incident

Validations are in place in the WIBRS processing website to prevent an agency from completely removing an incident from the state's database. If a Group A incident or Group B arrest is submitted as a Delete without being accompanied by Insert or Add data, respectively, it will err. In the rare cases where a complete removal is appropriate, please contact the state for assistance. If you submitted a Group A incident in error, you may find it easiest to mark the incident as unfounded. The incident will remain in the state's data, but will not be used for reporting or sent to the FBI (see "Unfounded Incidents").

Updating Group A Incidents

If a change has been made to a previously reported Group A incident, the entire incident should be resubmitted. Examples of changes include: adding an exceptional clearance, reporting demographic characteristics of a suspect/offender previously reported as unknown, or adding an arrest. The resubmitted incident should be sent with a Delete of the administrative segment, followed by Inserts of all applicable segments. *Note: The A=Add action type for Group A Arrest Segments has been discontinued as of 2016.*

Deleting Group B Arrests

WIBRS requires the arrestee transaction number and arrestee sequence number to be included with all Group B Arrest Segment deletion instructions. The state will then remove the Group B arrest for the specific arrestee(s) rather than automatically removing all arrestees from the Group B incident.

Time Window Submissions

The time window refers to the entire previous calendar year as well as the year to date in the current calendar year. For example, in June of 2016 the time window includes January – December 2015 plus January – June 2016. Therefore, the width of the time window can span between 13 months (in January) and 24 months (in December). The FBI resets the time window in January each year. However, submissions from the December file month will continue to be processed for WIBRS into a new calendar year. For example, a file submitted in January 2016 that is for December 2014 will still be processed by WIBRS. Note that in this example, the FBI will likely reject updates to incidents from December 2014 and prior because the FBI has stricter time window cut off rules than that of the state.

Any change can be made to incidents that occurred within the time window. However, previously reported Group A incidents that occurred prior to the time window can only be changed in three ways:

- Add recovered property
- Add an arrest
- Add an exceptional clearance

Time window additions or modifications to previously submitted time window incidents can be submitted by using the following segment action types:

- W – Time Window: adds a new time window record (property, arrest, or exceptional clearance)
- M – Modify: modifies a previously submitted W record

List of Major Programmatic Changes - Effective January 2016

General Changes

- All data elements are designated as either **Required** (must be included in all submissions), **Conditional** (included if other conditions are met, such as with particular offense codes), or **Optional** (only included if applicable). The Required designation is a change from the previous terminology of Mandatory.
- Terminology has been updated throughout the technical specifications document to match the terminology used by the FBI's national IBR program (NIBRS). These updates apply to the names of data elements as well as data values. Descriptions have also been updated to increase clarity.

Offense and Arrest Codes

- New UCR Offense Code values
 - **720 = Animal Cruelty:** Defined as "Intentionally, knowingly, or recklessly taking an action that mistreats or kills any animal without just cause, such as torturing, tormenting, mutilating, maiming, poisoning, or abandonment. Included are instances of duty to provide care, e.g., shelter, food, water, care if sick or injured; transporting or confining an animal in a manner likely to cause injury or death; causing an animal to fight with another; inflicting excessive or repeated unnecessary pain or suffering, e.g., uses objects to beat or torture an animal." This definition does not include proper maintenance of animals for show or sport; use of animals for food, lawful hunting, fishing, or trapping. Animal cruelty is a crime against society.
 - **26F = Identity Theft:** Defined as "Wrongfully obtaining and using another person's personal data (e.g., name, date of birth, Social Security number, driver's license number, credit card number)." Identity theft is a crime against property (Fraud).
 - **26G = Hacking/Computer Invasion:** Defined as "Wrongfully gaining access to another person's or institution's computer software, hardware, or networks without authorized permissions or security clearances." Hacking/computer invasion is a crime against property (Fraud).
- Retired UCR Arrest Offense Code value
 - **90I = Runaway** will no longer be collected.

Criminal Activity/Gang Information

- Four criminal activity types were added that are specific to and only to be used with the new **Animal Cruelty offense (720)**:
 - **A = Simple/Gross Neglect** (unintentionally, intentionally, or knowingly failing to provide food, water, shelter, veterinary care, hoarding, etc.)
 - **F = Organized Abuse** (dog fighting and cock fighting)
 - **I = Intentional Abuse and Torture** (tormenting, mutilating, maiming, poisoning, or abandonment)
 - The I code was previously used in WIBRS to indicate possession with the intent to deliver. A code of I will now err unless it is accompanied by offense 720. Historical use of the I code regarding drug possession will be maintained in the state's data repository.
 - **S = Animal Sexual Abuse** (bestiality)
 - The S code was previously used in WIBRS to indicate suspicion/conspiracy. A code of S (which was discontinued in 2013) will now err unless it is accompanied by offense 720. Historical use of the S code relative to suspicion will be maintained in the state's data repository.

Bias Motivation

- New category of “Race/Ethnicity/Ancestry” which includes the biases against race, ethnicity, and origin.
- New Bias Motivation values
 - Race/ethnicity/ancestry bias:
 - **31 = Anti-Arab**
 - Religion biases:
 - **28 = Anti-Mormon**
 - **29 = Anti-Jehovah’s Witness**
 - **81 = Anti-Eastern Orthodox (Russian, Greek, Other)**
 - **82 = Anti-Other Christian**
 - **83 = Anti-Buddhist**
 - **84 = Anti-Hindu**
 - **85 = Anti-Sikh**

Other Added Codes

- New Location Type value
 - **14 = Hotel/Motel/Etc.:** Includes other temporary lodgings
 - **20 = Residence/ Home:** Includes apartments, condominiums, townhouses, nursing homes, residential driveways, residential yards, and extended/continuous care facilities.
 - **58 = Cyberspace:** A virtual or Internet-based network of two or more computers in separate locations, which communicate either through wireless or wire connections.

Segment Processing Rules

- **Segment Action Type M** can now only be used to modify a previously-submitted time window record.
- **Segment Action Type A** should no longer be reported for the Group A Arrestee Segment. Instead, either delete and insert the entire incident, or submit the arrest by itself as a time window record (W) if the arrest occurred prior to the current time window or prior to the IBR base date.

Retiring Wisconsin-Specific Codes and Values

- To better match the National Incident-Based Reporting System, many of the codes used only in Wisconsin are being retired in 2016. These codes will continue to be accepted through 2016, but will error after the transition period; erring is anticipated to begin in early 2017.
- These codes have been removed or altered:
 - Offense segment
 - **UCR Offense 11E:** Ejaculate/Excrete on Victim. These offenses should now be coded as 13B, Simple Assault.
 - **Attempted/Completed code O:** Ongoing. Use only A (attempted) or C (completed).
 - **Location types 91, 92, and 93.** These locations should now be coded as 25 (Other/Unknown) unless another description is a better fit (such as 13, 18, or 23).
 - **Location types 94, 95, and 96.** These locations should now be coded as 14 (Hotel/Motel/Etc.).
 - **Location types 97, 98, and 99.** These locations should now be coded as 20 (Residence/Home).

- **Type of criminal activity/gang info codes I and S** have been repurposed so they match the Animal Cruelty uses; see descriptions above.
- **Weapon code 16:** BB/Pellet Gun. This should now be coded as 90 (other) in the Offense segment and 80 (other) in the Property segment.
- Property segment
 - **Property description code 40:** structures - barn. This should now be coded as 34 (structures – storage).
 - **Property description code 60:** All-terrain vehicle. This should now be coded as 24 (other motor vehicles).
 - **Property description code 61:** snowmobiles. This should now be coded as 24 (other motor vehicles).
 - **Suspected drug type (#1-3) code Q:** Hashish oil. This should now be coded as C (hashish).
 - **Type Drug Measurement (#1-3) code TN:** ton. Convert as needed and report as LB (pound).
 - **Type Drug Measurement (#1-3) code TR:** trace. Submit as quantity 000000000001 with measurement code GM (gram).
- Victim Segment
 - **Victim type P:** police officer. This should now be coded as L (law enforcement officer).
 - **Aggravated Assault/Homicide Circumstances**
 - **Code 00:** No apparent motive should now be coded as 10 (Unknown Circumstances).
 - **Codes 11, 12, and 13:** (drug related) should now be coded as 03 (Drug Dealing).
 - **Code 14:** Alcohol – Under Influence should now be coded as 09 (Other Circumstances).
 - **Code 50:** Argument/Money Property should now be coded as 01 (Argument).
 - **Code 51:** During a divorce/separation should now be coded as 09 (Other Circumstances).
 - **Code 52:** Child killed by a babysitter should now be coded as 09 (Other Circumstances).
 - **Code 53:** Shaken baby syndrome should now be coded as 09 (Other Circumstances).
 - **Relationship of Victim to Offender (#1-10)**
 - **Code CO:** cohabitant should now be coded as BG (victim was boyfriend/girlfriend).
 - **Code CP:** victim was professional caregiver should now be coded as EE (victim was employee).
 - **Code CR:** victim was professional care receiver should now be coded as ER (victim was employer).
 - **Code OB:** other business relationship should now be coded as OK (victim was otherwise known).
 - **Code RO:** victim was roommate should now be coded as FR (victim was friend).
 - **Degree of Sexual Assault** will no longer be collected (values 01, 02, 03, and 04). This data field will be kept open as a placeholder for future use.
- Arrestee Segment
 - **UCR Arrest Offense 11E:** Ejaculate/Excrete on Victim. These offenses should now be coded as 13B, Simple Assault.
 - **Disposition of Arrestee Under 18**
 - **Code 1:** handled within department and released should now be submitted as H (handled within department).
 - **Codes 2, 3, 4, and 5** should now be submitted as R (referred to other authorities).
- Group B Arrest Report Segment
 - **Disposition of Arrestee Under 18**
 - **Code 1:** handled within department and released should now be submitted as H (handled within department).
 - **Codes 2, 3, 4, and 5** should now be submitted as R (referred to other authorities).

List of All Changes by Report Segment

Segment 1: Administrative Segment	
Data Field	Changes
Segment Action Type	Categorized available types as Non Time Window or Time Window. M can now only be used to modify a previously-submitted time window record.
Cleared Exceptionally	Changed the description of value E to include “for minor offenses” to increase clarity.
Incident Date	Removed the Mandatory designation. This is an optional field to be included when known.
Report Date	Clarified that this element is required for all segment action types, including Delete .
Segment 2: Offense Segment	
Data Field	Changes
UCR Offense Code	Added data values 720 (Animal Cruelty), 26F (Identity Theft), and 26G (Hacking/Computer Invasion). Removed 90I (Runaway). Removed 11E (Ejac./Excrete on Victim). These offenses should now be coded as 13B (Simple Assault).
Offense Attempted/Completed	Removed code O (Ongoing).
Location Type	Added 58 (Cyberspace). Removed 91 (Victim’s Vehicle), 92 (Offender’s Vehicle), 93 (Other Vehicle). Use the code for where the vehicle was located, such as 13 (Highway/Road/Etc.), 18 (Parking/Drop Lot/Garage), or 23 (Service/Gas Station). Otherwise use 25 (Other/Unknown). Removed 94 (Victim Temporary Lodgings), 95 (Offender Temporary Lodgings), 96 (Other Temporary Lodgings). These locations should now be coded as 14 (Hotel/Motel/Etc.) Removed 97 (Victim Residence), 98 (Offender Residence), and 99 (Other Residence). These locations should now be coded as 20 (Residence/Home).
Bias Motivation (#1-5)	Reintroduced 31 (Anti-Arab). Added 28 (Anti-Mormon), 29 (Anti-Jehovah’s Witness), 81 (Anti-Eastern Orthodox), 82 (Anti-Other Christian), 83 (Anti-Buddhist), 84 (Anti-Hindu), and 85 (Anti-Sikh). Grouped race, ethnicity, and ancestry data values into the category “Race/Ethnicity/Ancestry”.
Type of Criminal Activity/ Gang Information	Added a new category of Criminal Activity – Animal which includes values A, F, I, and S. Changed description of data value I from “possession with intent to deliver” to the new FBI description of “intentional abuse or torture” for animal cruelty.
Offender(s) Suspected of Using (#2-3)	This field is now designated as Optional rather than Required (previously termed <i>Mandatory</i>).
Type of Weapon/Force Involved (#1 – 3)	Added “i.e., hands, feet, teeth” to the Personal Weapons description to increase clarity. Removed 16 (BB/Pellet Gun). This should now be coded as 90 (Other).
Automatic Weapon Indicator (#1- 2)	Changed description to specify “fully automatic - machine gun”.
Segment 3: Property Segment	
Data Field	Changes
Segment Action Type	Categorized available types as Non Time Window or Time Window. M can now only be used to modify a previously-submitted time window record.
Property Description (#1-3)	Removed 40 (Structures-Barn). This should now be coded as 34 (Structures-storage).

	Removed 60 (All-terrain vehicle) and 61 (Snowmobiles). These should now be coded as 24 (Other Motor Vehicles).
Number of Local Motor Vehicles	Changed data values so that 01-99 is used for number of vehicles and 00 = unknown (previously 99).
Vehicles Recovered by Other Jurisdictions	Changed data values so that 01-99 is used for number of vehicles and 00 = unknown (previously 99).
Suspected Drug Type (#1-3)	Removed code Q (Hashish oil). This should now be coded as C (Hashish).
	Clarified that Type #1 should only be filled in once per incident, for either Type Property Loss/Etc 1(None) or 6 (Seized), but not for both.
Type Drug Measurement (#1-3)	Removed code TN (Ton). Convert as needed and report as LB (Pound).
	Removed code TR (Trace). Submit as quantity 00000000001 with measurement code GM (Gram).
Time Window UCR Offense Code (#1-10)	Clarified in the description that segment action types W or M are used only for time window submissions.
Segment 4: Victim Segment	
Data Field	Changes
Type of Victim	Removed P (Police Officer). Should now be coded as L (Law Enforcement Officer).
	Clarified that type S (Society) can only be reported once per incident. All Crimes against Society should be submitted in one victim row.
Age of Victim	Clarified in the description that the victim's age at the time of the incident should be used.
Aggravated Assault/Homicide Circumstances (#1)	Added to the data values that up to 2 codes may be entered for 13A or 09A offenses.
Aggravated Assault/Homicide Circumstances (#1-3)	Removed code 00 (No Apparent Motive). This should now be coded as 10 (Unknown Circumstances).
	Removed data values 11 (Drug Related), 12 (Drug Related – Under the Influence), and 13 (Drug Related – Innocent Bystander). These should now be coded to the most appropriate of the other possible codes (on page 33).
	Removed data values 14 (Alcohol – Under Influence), 51 (During a divorce/separation), 52 (Child Killed by a Babysitter), and 53 (Shaken Baby Syndrome). These should now be coded as 09 (Other Circumstances).
	Removed data value 50 (Argument/Money Property). This should now be coded as 01 (Argument).
Victim to Offender Relationship	Changed description of data value BE to "Victim was the Baby/Child in the Care of a Babysitter".
	Removed data value CO (Cohabitant). This should now be coded as BG (Victim was Boyfriend/Girlfriend).
	Removed data value CP (Professional Caregiver). This should now be coded as EE (Employee).
	Removed data value CR (Professional Care Receiver). This should now be coded as ER (Employer).
	Removed data value OB (Other Business Relationship). This should now be coded as OK (Otherwise Unknown).
	Removed data value RO (Roommate). This should now be coded as FR (Friend).
Degree of Sexual Assault	Removed this data field, as it will no longer be collected (values 01, 02, 03, 04).
Type of Officer Activity/Circumstance	Changed the description to clarify that the circumstance codes should only be used for 09A and 13A-C offenses (previously 09B and 09C were included).
Segment 5: Offender Segment	
Data Field	Changes

	No changes were made to this segment.
Segment 6: Arrestee Segment	
Data Field	Changes
Segment Action Type	Categorized available types as Non Time Window or Time Window. Removed data value "A" (Add).
UCR Arrest Offense Code	Added data values 720 (Animal Cruelty), 26F (Identity Theft), and 26G (Hacking/Computer Invasion). Removed data value 11E (Ejaculate/Excrete on Victim). This should now be coded as 13B (Simple Assault).
Automatic Weapon Indicator (#1- 2)	Changed description to specify "fully automatic - machine gun".
Disposition of Arrestee Under 18	Removed code 1 (Handled within Department and Released). This should now be coded as H (Handled within Department). Removed data value 2, 3, 4, 5. These should now be coded as R (Referred to Other Authorities).
Segment 7: Group B Arrest Report Segment	
Data Field	Changes
Automatic Weapon Indicator (#1- 2)	Changed description to specify "fully automatic - machine gun".
Disposition of Arrestee Under 18	Removed code 1 (Handled within Department and Released). This should now be coded as H (Handled within Department). Removed codes 2, 3, 4, and 5. These should now be coded as R (Referred to Other Authorities).

Indicates the quantity of drugs or narcotics seized in a drug case. The first nine characters of the data value represent the quantity in whole units; the remaining 3 characters designate the fractional unit in thousandths with no decimals. For example, 1/2 ounce would be entered as 00000000500 and 1/4 gram would be entered as 00000000250. Do not enter the quantity of the remaining drugs/narcotics that are coded as X (Over 3 Drug Types); in that case, leave this data element blank. Trace amounts should be entered as 00000000001. If drugs were sent to the laboratory for analysis, 00000001000 should be reported with a Type Drug Measurement of XX.	00000000001 = Trace amount 00000000000-99999999999
